

I am writing in support of K-LOVE music station. K-LOVE has been my only music programming choice for the last 4 years. I am an annual financial supporter of K-LOVE and plan on continuing this support in the future. Additionally, our children all listen to K-LOVE music because it provides music that they relate to, testimonies of faith, and encouragement to them as American youth. These are values that we believe are of utmost importance and need to be emphasized, not discounted or diminished. K-LOVE serves not only our family, but MANY other families as well. When other children ride in our car, they are surrounded by a positive message and encouraged by the values that are expressed by humble servants involved in a ministry, NOT a profit-motivated industry. K-LOVE brings a message of hope to listeners. K-LOVE provides additional services to sometimes desperate individuals who may have stumbled upon the local station. It is important that K-LOVE continue to broadcast using FM translators so that their signal is available across the country. Please do not change the broadcast rules that would affect how K-LOVE is able to broadcast its signal.
Thank you,

Karen Browne
Concerned K-LOVE listener
